## **CHAPTER VII – INTERGOVERNMENTAL COORDINATION ELEMENT DATA, INVENTORY AND ANALYSIS**

### **A. INTRODUCTION**

As a newly incorporated city, Miami Gardens has proceeded to coordinate with other governmental entities through various interlocal agreements. This element coordinates Miami Gardens' goals, objectives and policies with related government entities to synchronize further development within the city. Any major conflicts by resolution will be proposed for a mediation process as established by the South Florida Regional Planning Council pursuant to F.S. 186.509, or any other method of intergovernmental conflict resolution. Pursuant to Chapter 163 F.S. and the new State Growth Management legislation, this chapter provides an inventory of existing intergovernmental coordination processes and mechanisms that involve the City of Miami Gardens.

### **B. INTERGOVERNMENTAL COORDINATION INVENTORY**

The intergovernmental coordination inventory list includes all the government entities that have some type of a relationship with this City. The inventory provides a brief description of the government entity, its relationship with the city and the subject area and the office with the primary responsibility of coordination. Please see **Table ICE VII-1** for a detailed inventory.

#### **1. Local Agencies**

##### **a. City of North Miami Beach**

Currently there is no agreement between the City of Miami Gardens and North Miami Beach. However, because of their proximity to each other, the City of Miami Gardens coordinates with the City of North Miami Beach as needed on various matters such as planning, potable water, sanitary sewer and drainage.

##### **b. City of Opa-Locka**

Currently there is no agreement between the City of Miami Gardens and Opa-Locka. However, Because of their proximity to each other, City of Miami Gardens coordinates with the City of Opa-Locka as needed on matters related to potable water.

##### **c. City of Miami Lakes**

Because of their proximity to each other, City of Miami Gardens coordinates with the City of Miami Lakes as needed. There are no agreements in place between the two cities.

d. City of Miramar (Broward County)

Because of their proximity to each other, and as a member of the State Road 7 Collaborative, City of Miami Gardens coordinates with the City of Miramar regarding the State Road 7 Corridor/US 441 redevelopment and other projects. There are no interlocal agreements currently in place between the City of Miramar and the City of Miami Gardens.

e. City of West Park (Broward County)

Because of their proximity to each other, and as a member of the State Road 7 Collaborative, City of Miami Gardens coordinates with the City of West Park regarding State Road 7 Corridor/US 441 redevelopment and other projects. There are no interlocal agreements currently in place between the City of West Park and the City of Miami Gardens.

f. Miami-Dade County

The City of Miami Gardens coordinates with Miami–Dade County on numerous issues regarding community development, traffic and infrastructure, and service delivery systems. Major components of the County’s service delivery system include:

- Drainage and NPDES permitting (City of Miami Gardens obtaining control around July 2006)
- Traffic control issues: signage/signalization
- Transit
- Social services and public health services
- Water and sewer services
- Solid Waste Services and recycling
- Annexation issues
- Planning and zoning
- Construction and maintenance of County roads
- Emergency management, including disaster preparedness and hurricane evacuation
- County recreation and open space

g. Miami-Dade County School Board

The City coordinates with the School Board on issues such as the impact of schools on Miami Gardens’ transportation system. The City Manager is the principal contact for the City in matters relating to the School Board. The Planning and Zoning and Parks and Recreation Departments are the day-to-day

contacts. See **Table ICE VII-2** and **Map PSF VIII-1** (in the Public Education Facilities Element) for location and grade details.

## **2. Regional Agencies**

### **a. South Florida Water Management District (SFWMD)**

The South Florida Water Management District (SFWMD), an agency created by the State pursuant to Chapter 25270, is a multi-county independent special district responsible for flood-control and water conservation within the South Florida Region. As one of Florida's five regional water management districts, SFWMD issues permits for the consumptive use of water, well construction, surface water management, and artificial recharge. Besides its permitting activities, the district is authorized to:

- Construct and operate water control works
- Engage in water resource planning
- Participate in technical investigations of water resources
- Gather water resource data
- Monitor discharges into SFWMD canals from City canals

The two major canals located within Miami Gardens, namely Snake Creek Canal (C-9) and Biscayne Canal (C-8) and other water bodies are regulated in coordination with SFWMD. Each district has an executive director appointed by a citizen Board. The Board renders decisions on policy matters based upon staff recommendations and public testimony received at Board meetings and public hearings. The South Florida Water Management District office is located in West Palm Beach. The City's Stormwater Master Plan was funded by SFWMD, under an agreement signed on January 21, 2005.

### **b. South Florida Regional Planning Council (SFRPC)**

The South Florida Regional Planning Council (SFRPC), located in Hollywood, is one of Florida's 11 regional planning councils. The SFRPC provides technical assistance to local government. In addition, the SFRPC has the responsibility for reviewing comprehensive plans or portions thereof in order to ensure consistency with the Strategic Regional Policy Plan goals, objectives, and policies. The City coordinates with SFRPC on matters involving review and evaluation of developments of regional impact (DRI), which are projects generating regionally significant impacts. The City has one DRI, the Dolphin Stadium DRI.

The South Florida Regional Planning Council may also submit recommendations to the State requesting modification of local plans. The City Council maintains responsibility for managing City issues that impact or are impacted by regional planning activities. The SFRPC is administered by an executive director who reports to a Board. The Board is made up of elected officials from local

governments belonging to the Council and Governor appointees. The South Florida Regional Planning Council includes the counties of Miami–Dade, Monroe and Broward.

### **3. State Agencies**

#### **a. Department of Community Affairs**

The Florida Department of Community Affairs (DCA) is headquartered in Tallahassee. The Department is administered by a Secretary appointed by the Governor. DCA provides technical assistance to local governments in the areas of:

- Housing
- Resource planning and management
- Community services
- Community development
- Land and water management
- Public safety
- Post-disaster recovery
- Emergency management preparedness

DCA administers a variety of grant programs designed to assist local governments in improving growth management resources, community infrastructure, and service delivery systems. The City of Miami Gardens has been coordinating with DCA in developing its first comprehensive plan pursuant to Chapter 163, Florida Statutes. The City Director of Development Services is the project director for comprehensive planning issues and is the principal liaison with DCA on this activity. The Public Works Director is the emergency management principal contact for the City.

#### **b. Department of Transportation**

The Florida Department of Transportation (FDOT) directs planning functions and coordinates maintenance and development of Florida's transportation system. FDOT has authority to direct the design, construction, maintenance, and related activities of the Florida Highway System. FDOT is responsible for the maintenance of State Road 826 (Palmetto Expressway), SR 7/U.S. 441, SR 860 (Miami Gardens Drive), SR 854 (NW 199<sup>th</sup> Street/Dan Marino Boulevard/Honey Hill Drive), SR 852 (County Line Road/NW 215<sup>th</sup> Street) and Florida's Turnpike within the City of Miami Gardens. FDOT has limited regulatory authority over the use of land along State roads including design standards for curb cuts on the State's major highway system. In addition, FDOT is responsible for determining the functional classification of roads within Miami Gardens. The FDOT District 6

office is responsible for coordinating most FDOT issues with the City of Miami Gardens.

**Table IGC VII-1** lists several agreements between the City and FDOT. In addition to the FDOT District 6 office, the City of Miami Gardens will coordinate with FDOT District 4 office on matters such as the Transit Bridge, SR7 widening project, Fast Bus, and others.

c. Department of Environmental Protection

The Department of Environmental Protection (DEP) is the state administrative agency in charge of environmental issues and natural resource protection. Its primary duties are:

- Protecting and conserving Florida's natural resources,
- Managing State owned lands/aquatic preserves, and
- Regulating industrial waste, air pollution emission, hazardous wastes, potable water usages, solid waste disposal, dredge and fill activities, and alteration to environmentally sensitive areas.

DEP also issues national pollution discharge elimination system (NPDES) water qualities certifications and serves as an umbrella agency for Florida's five regional water management districts. DEP is headquartered in Tallahassee. A Secretary appointed by the Governor administers the Department. Miami Gardens coordinates with FDEP on environmental resource issues involving public projects and private development.

The City currently has an agreement with DEP regarding a grant for drainage improvements (see **Table ICE VII-1**).

d. Department of Agriculture and Consumer Affairs

The Florida Department of Agriculture and Consumer Affairs (DACA) coordinates with the City of Miami Gardens through its Division of Forestry. The Department also operates an agricultural agent extension service within the Miami-Dade County governmental center.

City of Miami Gardens' Keep Miami Gardens Beautiful (KMGB) Program is the liaison for all coordinating issues such as the citywide Tree Inventory grant. The City staff and residents receive technical assistance, consumer related services, and publications, which also address a broad range of special services.

e. Department of State

The Florida Department of State (DOS) coordinates with the City of Miami Gardens on issues related to State archives and records as well as issues related to the historic sites and properties within the City of Miami Gardens. The City works with the Division of Historical Resources, Bureau of Historic Preservation, in

addressing comprehensive planning issues surrounding historic and archaeological sites of significance. The Department of State is also the City's primary source for obtaining rules and regulations promulgated by State agencies.

f. Department of Health

The Florida Department of Health (DOH) coordinates with the City of Miami Gardens on issues related to public health and environmental control. The City principally coordinates through the Miami-Dade County Department of Environmental Resources Management (DERM). DERM incorporates not only conventional public health functions but also environmental health programs. The latter entity is charged with managing a broad range of environmental issues, including septic tank regulation, water quality, and pollution control.

g. Department of Children and Family Services

The Florida Department of Children and Family Services (DCFS) coordinates with the City of Miami Gardens on issues surrounding delivery of rehabilitative, social and medical services for children, youth, family and elderly, including services directed toward special needs.

The DCFS also coordinates with the city on Assisted Living Facilities (ALF) classified as Community Residential Homes according to Chapter 419 of the Florida Statutes.

h. Florida Game and Freshwater Commission

The Florida Game and Freshwater Fish Commission coordinates with the City of Miami Gardens primarily through the review of projects that may have potential impacts on local fish and wildlife habitat or which may intrude on and disturb habitats of endangered species. The City coordinates its comprehensive planning activities with the Florida Game and Freshwater Fish Commission in order to achieve professional fish and wildlife management perspectives on issues potentially impacting fish and wildlife habitat, particularly habits of endangered and threatened species.

#### **4. Federal Agencies**

a. Environmental Protection Agency

The Environmental Protection Agency (EPA) is the federal agency responsible for protection of the environment. The EPA administers a variety of programs ranging from air and water quality protection to noise abatement. EPA exerts authority through the issuance of grant monies and through its power to fine violators. The agency establishes national drinking water and air quality standards with which all local agencies must comply. EPA standards are generally administered at the local level through the Florida Department of Environmental Protection and the Miami-Dade County Department of Environmental Resources

Management (DERM). On irregular occasions, the Fire Department also coordinates with the EPA when assistance is needed on clean up of hazardous waste spills. The EPA will coordinate clean-up efforts and advise the Department about safety measures for handling unusual materials.

The Environmental Protection Agency (EPA) issues National Pollution Discharge Elimination System permits and reviews permits issued by DEP for the treatment, disposal, and storage of hazardous waste. EPA may also prohibit or otherwise restrict the discharge of dredge and fill material. The Southeast Regional Office of the EPA is located in Atlanta. The EPA does not have a Florida office. All EPA permits for facilities constructed or operated in Florida are issued from the Atlanta regional office.

b. Department of Agricultural, Natural Resource Conservation Services

The Natural Resources Conservation Service has responsibility for mapping soils according to type, including soils that define wetlands, and this information is used to assist in locating areas that deserve special attention. In addition, the educational and informative information concerning prevention of soil erosion is disseminated to the public, development industries, and agricultural operations.

c. Federal Aviation Administration

The Federal Aviation Administration (FAA) is responsible for formulating and enforcing federal aviation regulations, air travel safety programs, aviation licensing, and general airport operations. The FAA is the coordinating agency with the City for aviation related issues including flight paths, local airport traffic and noise abatement.

d. Federal Emergency Management Agency

The Federal Emergency Management Agency's (FEMA) continuing mission is to lead the effort to prepare the nation for all hazards and effectively manage federal response and recovery efforts following any national incident. FEMA also initiates proactive mitigation activities, trains first responders, and manages the National Flood Insurance Program. Although not specifically related to the issue of environmental conservation, the 100-year flood zone mapping effort carried out by the Federal Emergency Management Agency (FEMA) Flood Insurance Administration often tends to be useful in defining sensitive areas. If an area is both flood prone and environmentally unique, the flood protection policies tend to provide additional reinforcement to the other City policies created for protection of the area.

e. Department of Housing and Urban Development

The mission of the Department of Housing and Urban Development (HUD) is to increase homeownership, support community development and increase access to affordable housing free from discrimination. Department of Housing and Urban

Development is responsible for coordinating with the City for the implementation and monitoring of these programs. The City will submit a Consolidated Plan in August 2006 to receive Community Development Block Grant (CDBG) funds from HUD.

## **5. Franchise Agreements and Related Services**

### **a. Electric Service - Florida Power and Light (FP&L)**

Miami-Dade County maintains a franchise agreement with the Florida Power and Light Company (FP&L) for the provision of electricity within its corporate limits. The City Manager is the principal contact for the City in matters relating to Florida Power and Light, and revenues collected from FP&L make up approximately 44% of the City's Utility Taxes.

### **b. Telephone Service - Bell-South**

The City has a franchise agreement with Bell-South for the provision of telephone service within its corporate limits. The City Manager is the principal contact for the City in matters relating to telephone franchise service agreements. Revenues collected from Bell-South make up approximately 49% of the City's Utility Taxes.

### **c. Solid Waste Collection Service**

City of Miami Gardens' has a solid waste franchise agreement for commercial and multi-family units with private vendors. Miami-Dade County provides solid waste service for single-family residences.

### **d. Gas Service**

AGL Resources is the major vendor with other small vendors providing this service to the City. Revenues collected from the Gas Utility company make up approximately 2.3% of the City's Utility Taxes.

### **e. Water Utility Service**

The City has an agreement with Miami-Dade County for Water Utility service, which makes up approximately 3.7% of the City's Utility Tax revenue.

## **C. INTERGOVERNMENTAL COORDINATION ANALYSIS**

This section provides an analysis of the intergovernmental coordination mechanisms, problems and needs within the City of Miami Gardens.

## **1. Existing Interlocal Agreements**

The City of Miami Gardens has adopted several interlocal, intergovernmental and joint resolutions, which are shown in **Table ICE VII-1**. Some major agreement mechanisms that affect the City are shown below.

### **a. Master Interlocal Agreement**

When City of Miami Gardens was incorporated in May 2003, the City and Miami-Dade County entered into an interlocal transition agreement that identified responsibilities for the provision of necessary public services between the City and the county as well as the financial arrangements to implement the allocation of those services.

### **b. Police Services Agreement**

Miami-Dade County Police Department serving as Miami Gardens' law enforcement and public safety has established mutual agreements for police service within the City. From September through December 2005, the City conducted a feasibility study for establishing a citywide police service. The next step will be to present the findings of the study to the City Council sometime in the Spring 2006.

### **c. Miami-Dade County School Board Agreement**

Pursuant to the recent 2005 Growth Management Legislation requirements, each municipality is required to enter into an Interlocal Agreement with the Miami-Dade County School Board to address all school attendance, facilities, school concurrency and related issues. This agreement has been adopted by the City in coordination with the School Board and all other local agreements in Miami-Dade County. The City also has other joint agreements with the School Board to allow public use of school recreation facilities during non-school hours. Such joint agreements are in place for Vista Verde Park, Norwood Park and Risco Park. These agreements are functioning in a productive manner and are an added benefit to the City residents.

## **2. Future Coordination**

The City of Miami Gardens has identified a number of other intergovernmental coordination priorities and are currently under discussion with other agencies. They are as follows:

### **a. Parks and Recreation**

Miami Gardens shall continue to coordinate with Miami-Dade County Parks and Recreation Department to ensure that the two existing County Parks are maintained and managed by Miami-Dade County.

b. Workforce/Attainable Housing

Affordable housing needs, as identified in the Housing Element, will be addressed by Miami Gardens through the CDMP and development review process. Miami-Dade County's initiative in Affordable housing incentives will be supported by the City through the following actions:

- Coordination with the Federal Government: The City shall apply for an "Entitlement City" designation to acquire Community Development Block Grant (CDBG) funds towards revitalization of residential areas.
- Coordination with the Florida Department of Community Affairs (DCA) and HUD: The City shall obtain necessary certifications as related to obtaining an "Entitlement City" designation.
- Coordination with Regional Agencies: The City shall coordinate with the South Florida Regional Planning Council to participate in a regional tracking system oriented to identify affordable housing supply and sites.
- Coordination with Miami-Dade County: The City shall coordinate with the Miami-Dade County Affordable Housing Task Force and its Workforce Housing Ordinance to ensure that appropriate policies and initiatives are effectively pursued in Miami Gardens.

c. Transportation

Miami Gardens' location between Miami-Dade and Broward counties makes the city extremely accessible, and a viable residential and business destination. The City is easily accessed by I-95, the Palmetto Expressway (SR 826), the Florida Turnpike, as well as numerous other county and state surface roads that form a relatively uninterrupted grid through the City. In addition, the City boasts multi-modal access to rail through the Florida East Coast Railway and the South Florida Tri-Rail System and is easily connected to both the Miami International Airport and the Fort Lauderdale/Hollywood International Airport, as well as the Opa-Locka Airport. All this makes it essential for Miami Gardens to address specific transportation issues and coordinate them effectively to ensure smooth mobility services to its residents.

- Coordination with Miami-Dade County Long-Range Plan for Transportation: The City shall participate in Miami-Dade County's transportation planning initiatives for areas within and around the City.
- Coordination with the Federal Aviation Administration (FAA) and Miami-Dade County: The City shall coordinate with the FAA and the County on a continuing basis to address issues related to Opa-Locka Airport traffic and noise impacts.
- Coordination with Florida Department of Transportation (FDOT), Miami-Dade Metropolitan Planning Organization (MPO), Florida Department of

Community Affairs (DCA), SFRPC and other State and Regional Agencies: The City shall coordinate on a continuing basis with related agencies regarding planned improvements to county and state roads, updates to the MPO's five-year improvement plan and the State Long Range Improvement Plan for state roads affecting the City. The City shall also coordinate with related agencies to address traffic impacts of proposed development.

d. Hurricane Preparedness and Evacuation

The Miami-Dade County Office of Emergency Management maintains a countywide disaster preparedness program, which the City participates in. The City has adopted its own Emergency Management Plan for both pre and post disaster management. The City shall coordinate closely with Miami-Dade County and adjoining municipalities regarding hurricane preparedness, evacuation plans, shelter space allocations and post-disaster recovery management.

## **D. GROWTH, DEVELOPMENT AND REGIONAL IMPLICATIONS**

This Element has presented an inventory and analysis of entities with which the City of Miami Gardens coordinates multi-jurisdictional issues surrounding growth, development, and resource conservation. In addition, the Comprehensive Plan: Data Inventory and Analysis for each functional element of the Plan identifies and analyzes issues having multi-jurisdictional impacts. Finally, the Comprehensive Plan: Goals, Objectives and Policies for each functional element of the Plan provide a pro-active approach for guiding the governmental coordination process in order to promote and further the resolution of intergovernmental coordination issues and/or conflicts. The intergovernmental coordination issues involving land use, transportation, housing, public facilities, and resource conservation shall be coordinated with Miami-Dade County. In addition, future intergovernmental coordination policy issues shall also be reviewed for consistency with the State of Florida Plan and South Florida Regional Planning Council Strategic Policy Plan.

## **E. INTERGOVERNMENTAL COORDINATION WITHIN AREAS OF CRITICAL CONCERN**

There are no Areas of Critical State Concern are located within the City of Miami Gardens.

**Table ICE VII - 1: City of Miami Gardens Inventory of Interlocal Agreements**

<b>ENTITIES COORDINATING WITH MIAMI GARDENS</b>	<b>DESCRIPTION OF COORDINATION</b>	<b>DATE EFFECTIVE</b>	<b>TERMINATION DATE- IF APPLICABLE</b>
